

Position Available: CAD Technician
Painesville, Ohio Office

Be part of a successful survey and civil engineering firm involved in commercial, residential and industrial site development and design of municipal infrastructure improvements. We offer a great benefits package including paid health care for this full time position. Applicants should be prepared to assist in development of water, storm and sanitary systems, water and wastewater treatment plants and various site development and survey drawings. Qualified candidates will have a minimum of an Associates Degree in Civil Engineering, and two years experience in civil design. Applicants should be familiar with AutoCAD Civil 3D 2007/2008 (knowledge of Microstation is a plus), Microsoft Office and enjoy working on multiple projects in a team environment. EOE. Email your resume, references and salary requirements to jemerick@ggceng.com. Resumes will be held in strict confidence.
